

WWZ

Night Vision Weapon Sights

The Armasight WWZ Scope is a high-performance, mid-range night vision weapon sight that provide excellent observational, target acquisition, and aiming capabilities for the most demanding sports shooters, hunters, and security personnel.

Armasight WWZ Scope is arguably the most dependable, highest-performing weapon sight you can find in the Gen. 1+ category. We have housed our top class optics and image intensifier tube within ruggedly designed aluminum body. For improved accuracy and ergonomics, all WWZ Scopes feature precision top wheel focus.

The Armasight WWZ Scope is the best solution for any tactical shooter or hunter seeking to improve the accuracy of their shooting in dark environments.
